

Agenda

1. Recap of last meeting's info ask
 - Decision to continue working through this subcommittee and not elevate to the main IWG
 - Draw on already publicly available information to avoid clearance issues
 - Identify gaps in information that can be reformatted to be more accessible for communities
 - Update 2011 resource document on EJIWG website
 - **Potential Projects**
 - A menu of resources and programs that can address community needs
 - A list of communities addressing climate change and EJ to identify best practices and useful information resources
 - **Next steps**
 - Review agency implementation reports to extract information
 - Collect reports and insert them into a templet
 - Could house the resource document on the Climate Resilience Toolkit or on the EJ IWG website
 - May need to reach out to the Public Participation Committee
 - Update current resource information to provide direction of where stakeholders could find current resources in the event that more traditional resources are no longer available in the future
 - Review the SBA national resource guide as a possible format
 - We will work on this project together during the bi-weekly calls.

To do's:

1. Everyone review menu template and come prepared with comments for the next bi-weekly meeting.
2. Review the Federal Resources section of the Georgetown Climate Center Adaptation Clearinghouse <http://www.adaptationclearinghouse.org/networks/> to identify your agency's programs to add to our menu
